Find Yourself a Special Friend

If there's someone you can talk to
Someone no one can replace —
If there's someone you can laugh with
Till the tears run down your face . . .
If there's someone you can turn to
When you need a helping hand,
If there's someone you can count on
To advise and understand . . .
If there's someone you can trust
To keep each confidence she's heard
If there's someone you think more of
As each year comes to an end —
You're a very lucky person
For you've found a
Special Friend

B-Squad, Frosh Show Their Power

The b-squad finished a disappointing season with a 21-14 win over Shadle Park in the last game. "The players improved in fundamentals and in understanding the team concept, and that's what we try to teach them," said Coach George Chalich.

This year's freshman finished with a 4-2 record, good enough for second place in the city. "They worked very hard trying to achieve the goal of being #1. Their enthusiasm and unselfishness paid off with a fine winning season," commented Coach Chuck Filippini.

"I'm glad I got this opportunity to tell about the fun and work that goes into A.S.B. As an elected official of the Associated Student Body, I learned many things about what it takes to get even small things going.

"Through my term as A.S.B. President, I and all the other officers have found out how to plan events, how much is involved, and what people are going to think of the final product. We learned that the people who don't want to get involved are always the first to criticize what you do. It makes it hard, but we make it through the tough times.

"During the first semester our activities ranged from the Big Sister Party to the big production of a Christmas Dance. We received positive feedback from the other students, so important for any organization. For the first time we really felt recognized and great about what we did.

I feel that N.C.H.S. has the best student body in the city. We always have had the spirit and I am sure it will continue. I hope that in future years the A.S.B. officers are elected with a great deal of concern about their ability.

"There's nothing I would rather have done my senior year than serve as North Central's A.S.B. president. This has been my chance to become actively involved in school government."

"Being the student body president does entail certain responsibilities. The president organizes and moderates A.S.B. meetings and delegates committees for various projects. Occasionally he may organize certain school functions. He is sometimes obligated to serve on committees or with organizations such as the con committee or the Inter-High Senate. The president often represents the school in community affairs. He also serves as an overseer of the other A.S.B. officers and their duties.

"Although the president is generally recognized as the leader of the student body, nothing could be accomplished without the other creative and energetic officers."
